DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on September 30, 2004 has been entered.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: Amendment filed September 30, 2004 has been entered. Claims 1-11 have been cancelled. New claims 12-22 have been added. Newly added claims 12-22 have been found to be allowable since the prior art of record either alone or in combination, neither discloses nor makes obvious the combination of a sheet post-processing device comprising, among other features, a stacking tray which is provided for receiving the sheet that is dropped through a gap created between inner edges of the pair of support members which are moved away from each other and are moved to respective retraction positions and wherein the gap between the inner edges of the pair of support members in the direction that intersects the sheet conveying direction is narrower on a down stream side in the sheet conveying direction than on an upstream side when the support members are retracted from each other, as recited in the instant claims of the present invention.
